AVIENT SOLUTION

Bergamid™ Customized Polyamide Formulation

WHY AVIENT?

- Provided durable and impact-resistant glass fiber reinforced formulation with excellent surface finish and good dimensional stability for smooth operation
- Passed all temperature durability and drop tests to confirm use in outdoor environments
- Collaborated with customer via technology services to accelerate product development

LEARN MORE

KEY REQUIREMENTS

- Good dimension stability with low warpage at different temperature ranges (70°C, room temperature, -40°C)
- Good appearance with less glass fiber exposure
